Policy Statement:

The vision describes what is most sought-after for the future of the organization. It is the link between the organization's values and a desired future reality.

The mission statement expresses what the organization intends to do and describes the business that the organization is in. It may also describe how its business is different from other organizations in the community.

The vision and mission are established through consultation with the membership, staff and key stakeholders.

The Board of Directors will ensure that its vision and mission are current and reflects the values and long term focus of the organization.

Vision

Our Vision is an inclusive Alberta in which adaptive snow sports are accessible to all.

Mission

CADS Alberta provides all Albertans recreational and competitive adaptive snow sport opportunities through a safe inclusive learning and training environment; supported by strong leadership, advocacy and partnerships.
